

Solar LED 12 V (AC/DC)

LED A60 827 806lm E27 12V OP

Low-voltage lamp

Description of product family

The use of solar energy is increasing, and lighting solutions often require 12 V lamps. Typical applications include summer cottages, motorhomes and boats. The lamps operate on 12 V AC/DC voltage. If a transformer is used, ensure compatibility between the 12 V lamps and the power supply. Technical specifications are clearly presented on the packaging. The colour temperature of the lamps is warm white (2700 K).

Technical details

**Opal standard LED lamp for low-voltage systems, such as solar power systems and mobile applications. 12 V AC/DC, 8.1 W, warm white colour temperature 2700 K. E27 base, 806 lm, lifetime approx. 15,000 h. Dimensions Ø 60 × 110 mm. Carton. Frequency ~50/60 Hz. The lamp operates on both AC and DC voltage (12 V). Suitable for boats, caravans and summer cottages. Good colour rendering index CRI > 80. Continuous, even light spectrum with no colour distortion. No UV or IR radiation. Mercury-free. Three-year warranty.
